Founded in 1962, Tanzania is one of the Peace Corps oldest programs and is truly appreciated by the government and people of Tanzania. A vast country, with diverse but united people and astounding natural resources, Tanzania faces many development challenges. The government and its partners have set goals to address these challenges, which include: eradicating extreme poverty and hunger, achieving universal primary education, promoting gender equality, reducing child mortality, improving maternal health, combating HIV/AIDS, malaria and other diseases and ensuring environmental sustainability.
